

Front Doors

RD80/RD100

Your front door is a key element of your house façade. Every day you see, touch, and use it. Consequently, your door should complement the facade, be safe and secure whilst providing the very best insulation from the element's. High tech. finishes and the very best accessories should ensure maintenance free use.

“Ryterna” offer a wide range of made-to-measure front doors in numerous design choices including the possibility to create your individual / bespoke design. The latest technologies combined with the perfect design features ensure an outstanding appearance and performance.

“Ryterna Entry” is a part of the “Ryterna Group” who have been manufacturing doors since 1993. With authorised dealers all over Europe and our own transport fleet we can provide the shortest possible lead times. “Ryterna” entrance doors are manufactured in a new efficient factory located in Kaunas, Lithuania. Sustainability in manufacture combined with the thermal performance of our products is central to our growth philosophy. We constantly seek for morally responsible and environmentally cleaner ways to improve in all areas of business.

RD80

The door frame is constructed from aluminium profiles including a thermal break to reduce thermal transference from the outer to inner skin. The doors leaf's inner and outer skins are created from a single sheet 2.5 mm thick aluminium sheets (some designs may differ).

The doors inner core, assembly profiles and frames are filled with a strong environmentally friendly freon free PU foam.

Triple all round perimeter rubber weather sealing completes a combination that gives Ryterna entrance doors the following performance values:

Thermal transmittance
U value

0.69 W/m²K

Safety resistance class
EN 12519

RC 3*

Wind resistance class
EN 12207:199-11

3

Rain resistance class
EN 12208:199-11

6A

Sound reduction
EN 717-1:2013

32 Db

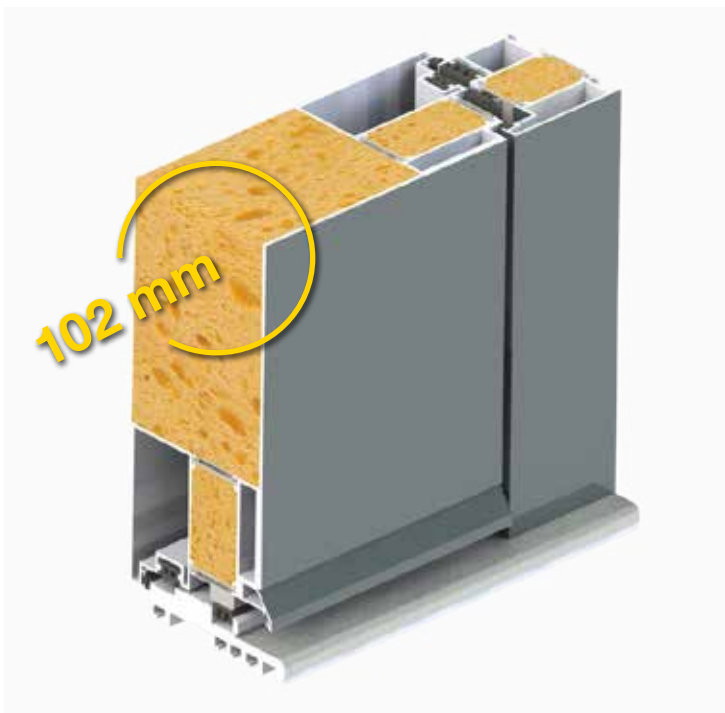

* RC2 as standard - RC3 option upgrade

RD100

A high quality durable magnetic ‘pop-up’ threshold is supplied with all RD80 & RD100 doors. Opening into the building and out are available.

All door leaf windows are triple glazed with safety glass. Many decorative glass options are available including bespoke / custom engraving. Individual design elements can be added to complete your bespoke / custom doors.

All doors are made to order up to 1250mm wide & 2300mm high. For larger sizes consult manufacturer for feasibility.

Thermal transmittance
U value

0.65 W/m²K

Two Types Of Frames

1. Flat
2. Jutted

Door Leaf

Flush leaf with aluminium sheet skin. Three contour sealing ensures perfect insulation. Door has three seal contours: one on the frame and two on the leaf.

Magnetic Threshold

The 'pop-up' magnetic strip is a high quality durable and maintenance free threshold system that significantly improves insulation and draughts. Two further rubbers ensure the best possible performance.

As the door closes a magnetic strip rises to create a perfect seal between the threshold and door.

As the door opens the strip gently drops back into its groove reducing the step.

Our magnetic threshold has been designed to reduce the obstacles met by wheelchairs, prams and other wheeled vehicles.

Hinges

Depending on the design of the profile sections, the 3-piece hinges are able to support doors weighing up to 120 kg. These two series are fastened with the aid of self-drilling screws in the reinforcement of the frame profile with long pins to distribute the forces, acting on the hinge. It also leaves the seal untouched, thus ensuring maintenance of the maximum insulation values. It can be adjusted very conveniently and with little effort in three directions.

Concealed Hinges

The Wala WU hidden hinge is a certificated product with capacity equals 150 kg. It guarantees quick and easy assembly. Wala WU hinge provides smooth regulation in three directions.

Concealed hinges are available with RD100 only.

Triple glazed windows on door leaves. Safety glass P4A outside and inside.

POL

Partial Opening Lock

Available in silver or white.

Lock Cylinders

WILKA lock cylinders are famous for their security and reliability. You can choose one of three safety classes: A, B or C the highest.

WILKA cylinder comes with 5 keys. Additional keys are available on request.

CWA

CWA+TT

Finger Scanner

FSC1 - can be inlayd into door leaf or handle. Thanks to its compact design Arte finger scanner can be integrated discreetly into unusual door designs and fittings.

FSC2 - can be instaled on to door leaf. The finger scanner is mounted in the wall using stainless-steel accessories (in-wall set).

The finger scanner will only operate when connected to an ekey control panel.

Both finger-scanners can be controlled by app. So you can open the door with your smart-phone and enjoy all the benefits of operation via app.

FSC3 - Secure and easy to operate Sommer finger scanners Increase key free security and convenience.

Each user can enter three separate fingerprints to control your entrance door, garage door and gates. One simple swipe opens or closes your devices as desired.

FSC4 - SIEGENIA fingerprint scanner with SI-BUS technology. Direct installation without separate control unit. With WIFI and Bluetooth chip as standard. Administration of up to 200 users or 800 features. Control via the SIEGENIA Comfort app is possible.

FSC1

FSC2

FSC3

FSC4

Keypads

KP1 - The keypad for mounting on the wall. 3 different codes can operate 2 different relays.

KP2/KP3 - ekey Integra keypads are secure and easy to operate. Up to 99 individual users. The Keypad can be installed on door leaf or on the wall.

KP4 - SIEGENIA keypad with SI-BUS technology. Direct installation without separate control unit. With WIFI and Bluetooth chip as standard. Administration of up to 200 users or 800 features. Control via the SIEGENIA Comfort app is possible.

KP5 - ENTRAcodes+ access is secured by means of a numeric code. The code consists of 4 to 8 digits, as desired, and can be set individually.

Locks

KFV locks are made from high-quality materials with precise workmanship. Hi-tech mechanics ensure reliable, precise and easy operation. Lots of options starting from the simplest 3 point lock up to sophisticated 5 point lock.

L3P - 3 points multiple lock. Main lock deadbolt and hook bolts operated by the key.

L5P - 5 points multiple lock. Two round latch bolts lock the leaf on closure automatically and opens by the key. Deadbolt and hook bolts operated by the key.

L3P+D&N - day & night. 3 point multi-point lock with option to temporary disable self-locking. Main deadbolt and hook bolts operated by the key.

L3P+D&N+EM electric - 3 points multi-point lock with electric latch and option to temporary disable self-locking. Main lock deadbolt and hook bolts operated by the key.

L5PMA electric - 5 points multi-point lock. Round latch and hook bolts lock the leaf on closure automatically. Deadbolt operated by the key only. If deadbolt is engaged automatic unlocking is disabled. All latches open by electric drive when turning the key or pressing lever handle. Lock can be connected to finger-scanner or keypad (optional). Not compatible with lever handle from outside, pull handle only.

L5PM without electric motor - 5 points multi-point lock. Round latch and hook bolts lock the leaf on closure automatically. Deadbolt operated by the key only. All latches and deadbolt are unlocked by pressing inside handle. Not compatible with lever handle from outside, pull handle only.

L5PA electric - 5 points multi-point lock with all latches and deadbolt operated by electric drive. Locks automatically when closing the door. All latches and deadbolt open by electric drive when turning the key or pressing lever handle. Not compatible with lever handle from outside, pull handle only. Lock can be connected to finger-scanner and keypad (optional).

L5P + panic function electric - 5 points multi-point lock with all latches and deadbolt operated by electric drive. Locks automatically when closing the door. All latches and deadbolt open by electric drive when turning the key or pressing lever handle. Not compatible with lever handle from outside, pull handle only. Lock can be connected to finger-scanner and keypad (optional).
